# Summer LanguageSchool:

**German** for Science, Technology, Planning, Building and Environment

**Modern Language Center (ZEMS),  
Technische Universität Berlin**

## German for Students and Scientists

The TUB SummerLanguageSchool offers intensive and practice-oriented preparation for academic studies and research in Germany.

In addition to general language skills, you will acquire technical language for science, engineering, planning and building.

You will learn more about science, research and university life in Germany and have the opportunity to experience the cultural capital, Berlin.

### The German Course: Intensive and Focused Learning

In this intensive course you can improve your language skills in daily lessons with many opportunities for the practical application of German.

Experienced teachers will help you to

- increase your vocabulary and grammar skills.
- improve language skills for daily university life.
- learn more about special features of communication in academic circles.
- practice methods and techniques for handling information.

You will work and learn efficiently in small groups and receive individual feedback about your progress.

## Specialized Learning

This intensive German course will teach you exactly what you need:

Participants with a German level between A1.2 and B1 will acquire the basics needed to manage everyday life and become acquainted with the university.

Participants with a German level of at least B2 will improve their academic and subject-specific language skills.

### Modules: Science and Universities in Berlin

The afternoon modules will provide insight into university life in Germany, the scientific landscape of Berlin, and research at the TU Berlin.

Through excursions, discussions with experts, seminars and projects you will

- learn more about student life in Germany.
- learn about TU Berlin faculties, institutions and experts.
- visit companies, organisations, and scientific institutions.
- improve your language skills.

### The Cultural Capital, Berlin

Berlin has much to offer and is the perfect place to learn about German history, to experience its culture, and to spend your summer.

The SummerLanguageSchool offers a wide range of excursions and cultural activities, allowing its participants to experience the many faces of Berlin and its surroundings.
